EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael J. Pollock on 10 June 2005.

The application has been amended as follows:

- i. In claim 11 change "causes the image capture system to generate a plurality of still images" to --causes the image capture system to capture a plurality of still images" in step (c).
- ii. In claim 11 change "causes the image capture system to generate a plurality of still images" to --causes the image capture system to capture a plurality of still images" in step (h).
- iii. In claim 12 change "causes the image capture system to generate a plurality of video motion loops" to --causes the image capture system to capture a plurality of video motion loops" in step (c).
- iv. In claim 12 change "causes the image capture system to generate a plurality of video motion loops" to --causes the image capture system to capture a plurality of video motion loops" in step (h).

Art Unit: 2612

v. In claim 13 change "causes the image capture system to generate a plurality of still image sequences" to --causes the image capture system to capture a plurality of still image sequences" in step (c).

vi. In claim 13 change "causes the image capture system to generate a plurality of still image sequences" to --causes the image capture system to capture a plurality of still image sequences" in step (h).

2. The following is an examiner's statement of reasons for allowance: Although it is known in the art to select parameters for imaging systems by asking the user to select the best looking image, iteratively updating a parameter range while capturing new sets of images with the image capturing system until a final image is selected in order to obtain an updated operating parameter as claimed is not taught or fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy J. Henn whose telephone number is (571) 272-7310. The examiner can normally be reached on M-F 9:00 AM - 6:00 PM.

Art Unit: 2612

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wendy R. Garber can be reached on (571) 272-7308. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
